## **Grepolis Private Server 'LINK'**

Grepolis Private Server is a Private Torrent Tracker based in Netherlands and is designed mainly for gamers and modders. It is similar to Vuze and OtherXploitation, a P2P Audiovideo sharing website. Grepolis Private Server is operated by a group of young game developers who have developed the application using their experience as game developers. In the servers there are new releases and mods updated

almost every day. The users of this tracker can download everything from mods to rar files and fims with no limitations. There are many games on the server such as FNAF 4. There is also a special forum section where the users discuss mods, games, and other similar types of posts. Currently, there are over 100 active trackers available with over 2.2 million members participating in the tracker. A special section

of the tracker is dedicated to games and programs that contains mods, files, and links. Tracker Features: Easy to find and add \( \mathcal{O} \) Downloading and seeding is very easy & Selecting single or multiple torrents \( \neq 15 \) languages are included Auto action is customizable \( \nabla \) Compact and easy to use & Multi connections ✓ Powerful encryption ✓ Related Channels Instant termination of torrents \( \nabla \)

Customizable and intuitive \( \neq \) Multicurrency (US\$, EUR, GBP) & Registered forum & Autoconfirmed members \( \nabla \) Automatic request to AutoTracker and a real-time warning system \( \nabla \) Automatic seeding \( \nothing 12 \) hour cookie which means no limitation  $\mathscr{D}$ Unlimited bandwidth \( \nothing \) Priority for new members and your own requests & Scheduling and Autoaction system & DHT & Push notifications & Large

database of downloads  $\mathscr{D}$ Multiseeds \( \nabla \) Tracker Statistics Aria, a.jpg file, with a size of 1,512 kb. Aria, a.jpg file, with a size of 7,032 kb.
