Siemens S7 300 (Transportation) Digital Vehicle Central.Vestibular evoked myogenic potentials in patients with idiopathic sudden sensorineural hearing loss. In patients with sudden sensorineural hearing loss, whether central vestibular abnormalities are present is of clinical interest. The vestibular evoked myogenic potential (VEMP), which is also affected in such cases, may be a suitable tool for the evaluation of central vestibular function. The purpose of the present study was to evaluate the VEMP of patients with sudden sensorineural hearing loss to clarify the pathophysiology of this disorder. VEMP responses to ipsilateral and contralateral electrical stimulation of the sternocleidomastoid muscle were studied in three groups of patients: 22 patients with idiopathic sudden sensorineural hearing loss, 10 patients with traumatic brain injury and 11 age-matched normal controls. The whole-nerve reflex of the sternocleidomastoid muscle was obtained by electromyography, and the responses to supra-threshold stimulation (threshold: 80%) were assessed using a two-channel earlobe electrode. The latencies and the incidence of the whole-nerve reflex to ipsilateral (Ia) and contralateral (Ic) stimulation were not significantly different among the three groups. The amplitude of the Ia response to ipsilateral stimulation was less than 50% of the control amplitude in 6 patients, while that to contralateral stimulation was less than 20% of the control value in 8 patients. Therefore, the VEMP parameters in these patients

I'm looking for a way to pass this information to a script on my Windows command line. A: First you need to understand whether the file is plain text, or something like HTML and/or RTF. So you can do something like strings archivename or file inarchivename Ask HN: Where can I learn Android development? - malandrew I have a decent amount of professional experience in C and Java. Most of the work I have done is in the cloud. I would like to get more serious about Android and possibly create some apps of my own, but I am not sure where to start. Any suggestions for books, tutorials, websites, etc.? ===== bradhe Anything Android related is on Google: There are also Android training courses: [ Not sure about any pre-made tutorials, but if you have experience with C/Java I'd suggest starting with the Android SDK. ---- psbp I'd recommend starting with the Android SDK. At least for the basics. You can learn the rest of the tech as you go. ----- calmeed You need to be more specific. Are you trying to get into mobile development? Do you want to create native apps for the iPhone/Android? The purpose of the International Workshop on Swine Inflammatory Bowel Disease (IBD) is to meet the need for high quality, well-controlled, scientific studies of the complex etiology and pathogenesis of inflammatory bowel disease (IBD), including Crohn's disease (CD) and ulcerative colitis (UC). The workshop will bring together the best experts in the field, to review the state of current knowledge in the areas of immunology, genetics, and mechanisms of inflammation. The event will also be of benefit to young investigators in the field of IBD, to increase their knowledge and identify their future research interests. The workshop is being organized by the Inflammatory Bowel Disease Center at the National Institutes of Health with strong support from the international IBD research community. An international team of the investigators involved in the planning for this workshop will work with the Institute of Medicine and the National Research Council (NRC) to organize the
