Bible Verse Desktop [Latest 2022]

Bible Verse Desktop is a simple gadget able to display Bible verses on your desktop. Despite the small size of the application, it provides users with up to 20 different versions of the Word of God in different languages. The Bible can be displayed on one desktop, so you can have a Bible verse on your desktop at all times. Version and language you can also change. This application works with any version of Windows, and the results of the displayed Bible verses match the latest one. A click on the Bible shows the corresponding verse in the moment you are viewing it. Bible Verse Desktop can be set to change the Bible verse every certain minutes, so it always stays fresh. There are also two different settings for this option. With the “change at a certain time” setting, the word of God is changed every X minutes. The other setting allows you to set a specific time, so the Bible is changed every Y minutes. Background color, font style and size as well as shadowing can also be set. Bible Verse Desktop allows changing the location of the gadget with the right-click menu. Furthermore, the Bible verses can be made the wallpaper.
