From director Christopher Nolan ("The Beginning", the "The Dark Knight" trilogy) comes the story of a team of pioneers. These guys decided to accomplish a feat and go alone across the ocean on a sailing ship. That's just not taken into account what adventures they have to go through. During their long journey by boat, they encountered pirates who accidentally managed to get the coordinates of the place where the treasure is located. And in order not to share the booty, the pirates decided that they all need to be killed, and the ship should be flooded. But it was not there. The ship is sinking, and with it all its contents. But the guys don't give up.
