## Diagbox 7.01 26

4 08/16/2014, 10:26 PM. Diagbox 7.01 to 7.30 torrent from start to finish offline installation was fully available. At 7.30 there were points: 1. Remove the item from the "offline". 2. Remove the "update" items. 3. Remove the "debit" item. 4. Remove the "installer" item. 5. Reinstall the installer. And it's all. If I don't confuse anything. How was the hat? Which version of DIACOLOR had the offline installer? By the way, there is still no word in the header about which version of DIACOLOR was used in the offline installer. How did he work? PS: Didn't understand what "offline installer" means?
