The previous mayor of the county, Bill Braniff, had announced in March that he was planning to run for re-election in 2020, but since then, he has been forced to step aside because he is under investigation for fraud and possible extortion. Braniff said in a statement that he is innocent of any crime, and that he had no intention of extorting any business leader or otherwise interfering with the administration of his office. Before he was forced to step aside, the current administration was planning to hire Braniff, but Braniff then announced that he would not run for the office and asked all of his supporters and campaign staff to resign. He is currently being represented by the attorney for the Denver metro area's El Paso County Sheriff's Office, and the investigation in Colorado started with the arrest of a cooperating witness. Braniff's alleged involvement was discovered after law enforcement officers questioned the witness about his alleged extortions during the meeting. The county sheriff's office, the investigators, and state and local prosecutors are determining whether the money that was being paid to Braniff was taken from other residents, and if so, whether that is a felony or a misdemeanor. If there is no case, the parties will be contacted and warned that in the future, they should not hire anyone for the government that is under investigation. The current mayor, Ed Philpot, had previously told the Denver business leaders, including investors in the startup space, that the county could not afford to

The human intestinal tract is inhabited by trillions of microorganisms that participate in the maintenance of the host mucosa and immune homeostasis. The mechanisms by which these microbes acquire and use nutrients are of critical importance for intestinal health and the well-being of the host. The iron in

the human diet is poorly absorbed in the large intestine because of the presence of an enterocyte-specific inhibitor of iron uptake. The bacterial siderophore enterobactin was shown to be a potent human iron transporter. However, much less is known about other such iron 3e33713323
